Introduction

- CVGEN your intuitive CV creation tool. Easily scroll through past CVs, manage multiple versions effortlessly, and personalize with already given templates.
- Save time with pre-filled sections and access CVGen on the go from any device.

Problematics

1

Career Transition

Showcasing relevant skills and experiences from past.

2

Job Search

Creating tailored CVs for different positions.

3

Education

Highlighting academic achievements and relevant experiences.

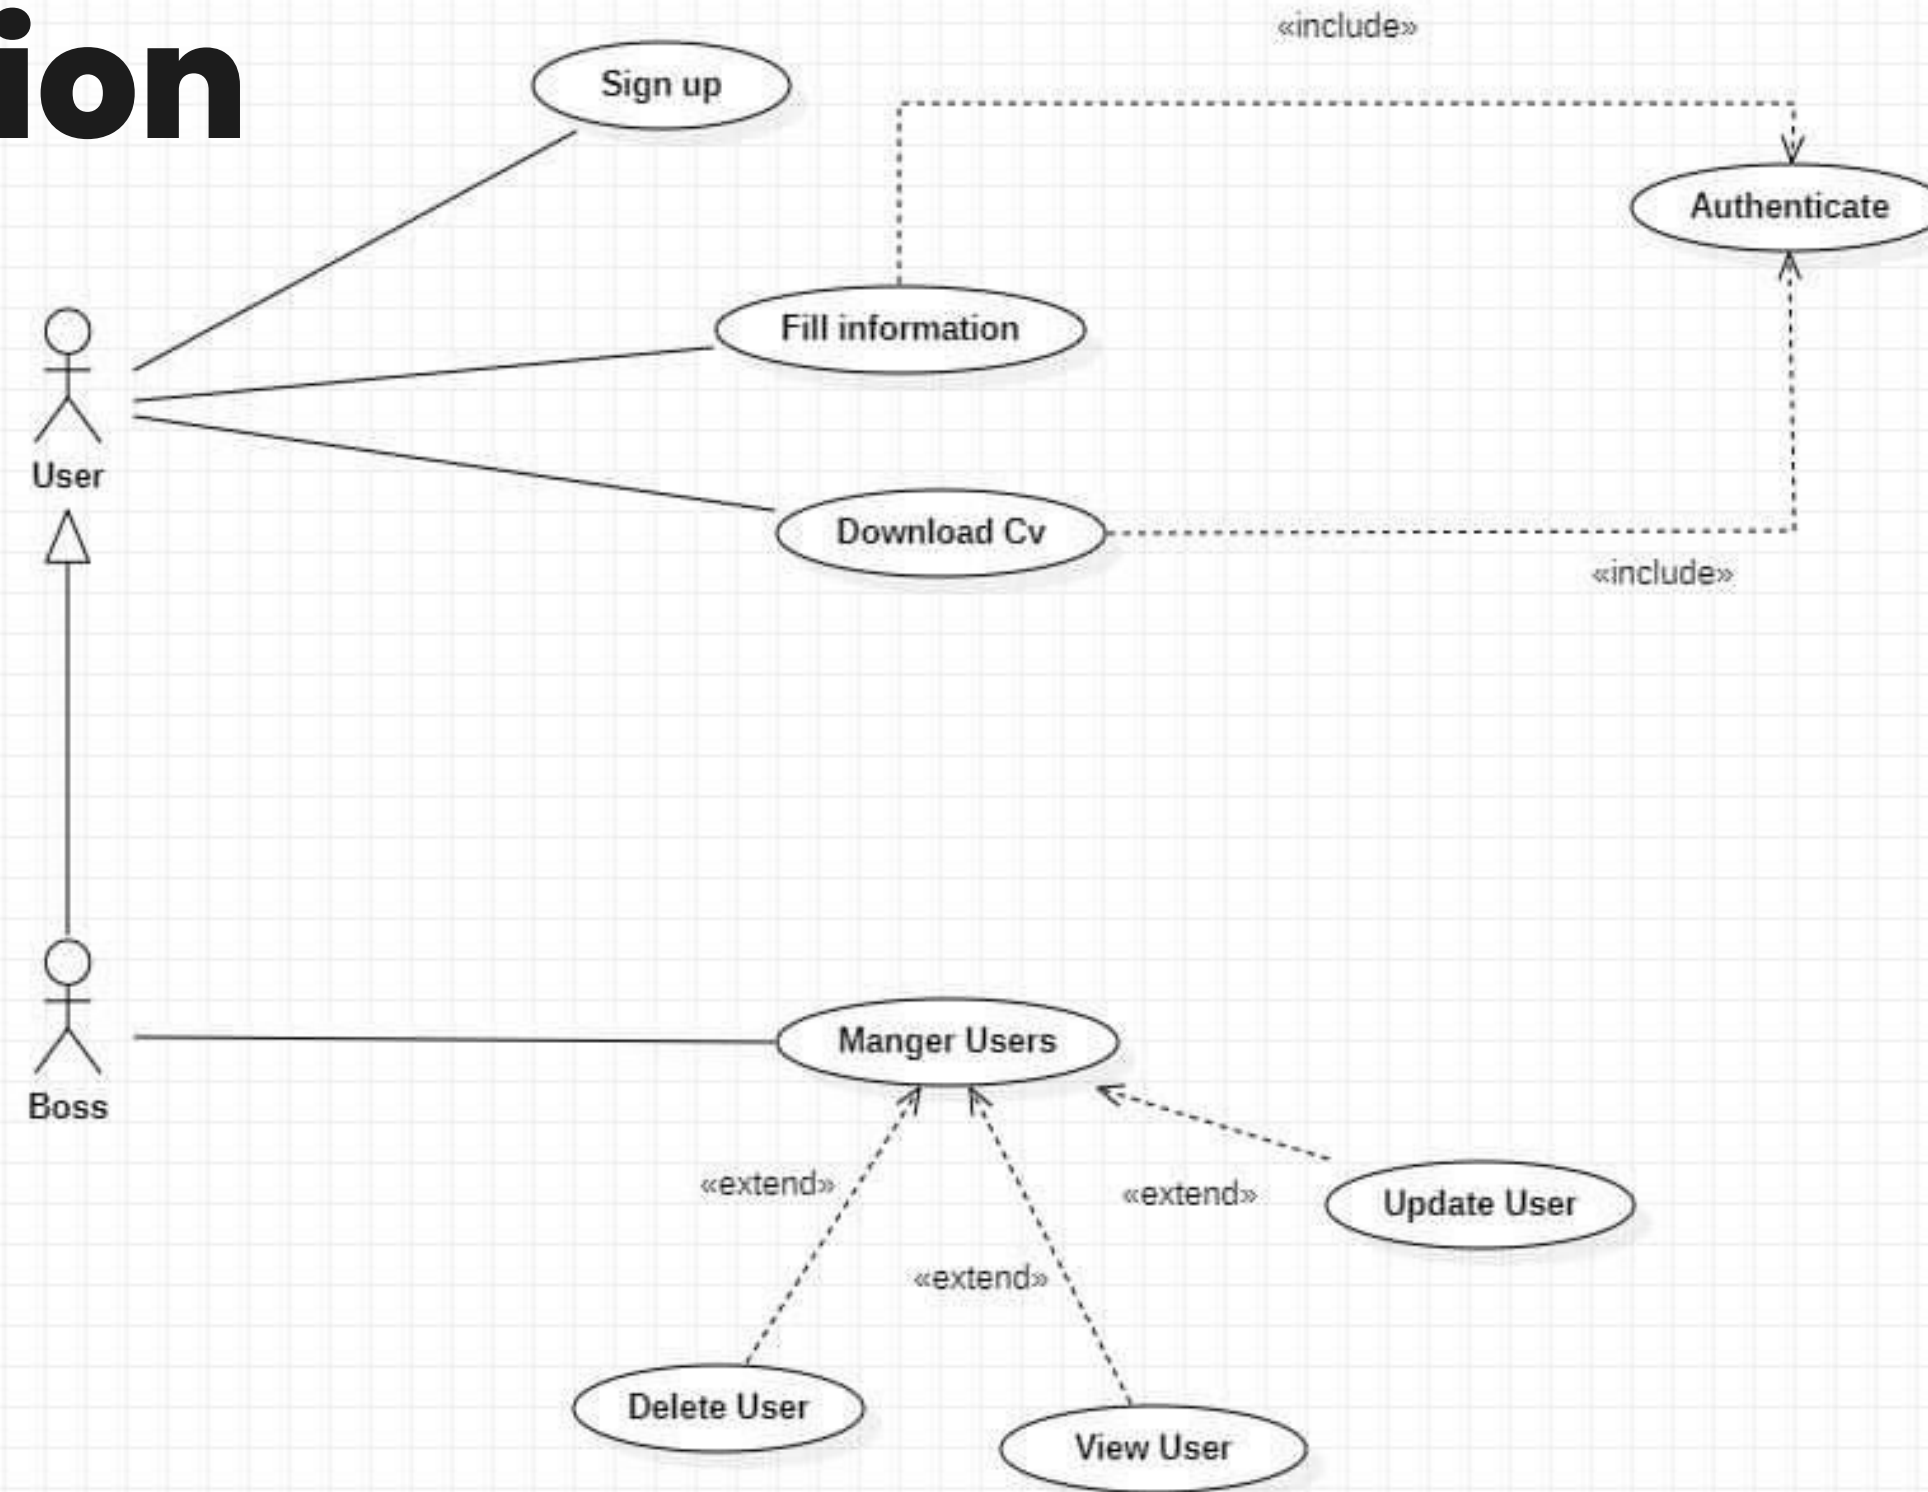

4

Returning to Workforce

Updating CV to reflect recent experiences and skills after a period of absence.

Features

Colorful CV Templates

Supports more than one languages

Easy to use for beginners

Download in few minutes

18

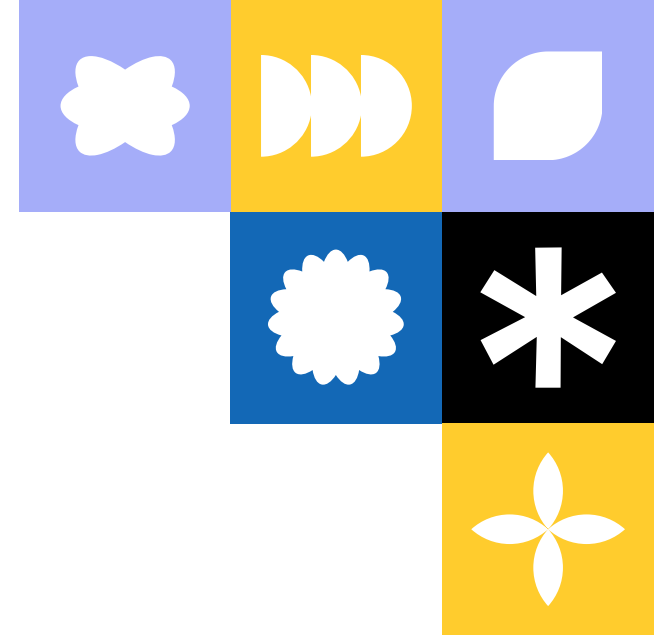

Comparison

- 1 Supports MVC
- 2 A well defined conception
- 3 Ergonomic features

OTHERS

- 1 DO not support MVC (most likely)
- 2 No conception
- 3 Lack of easiness

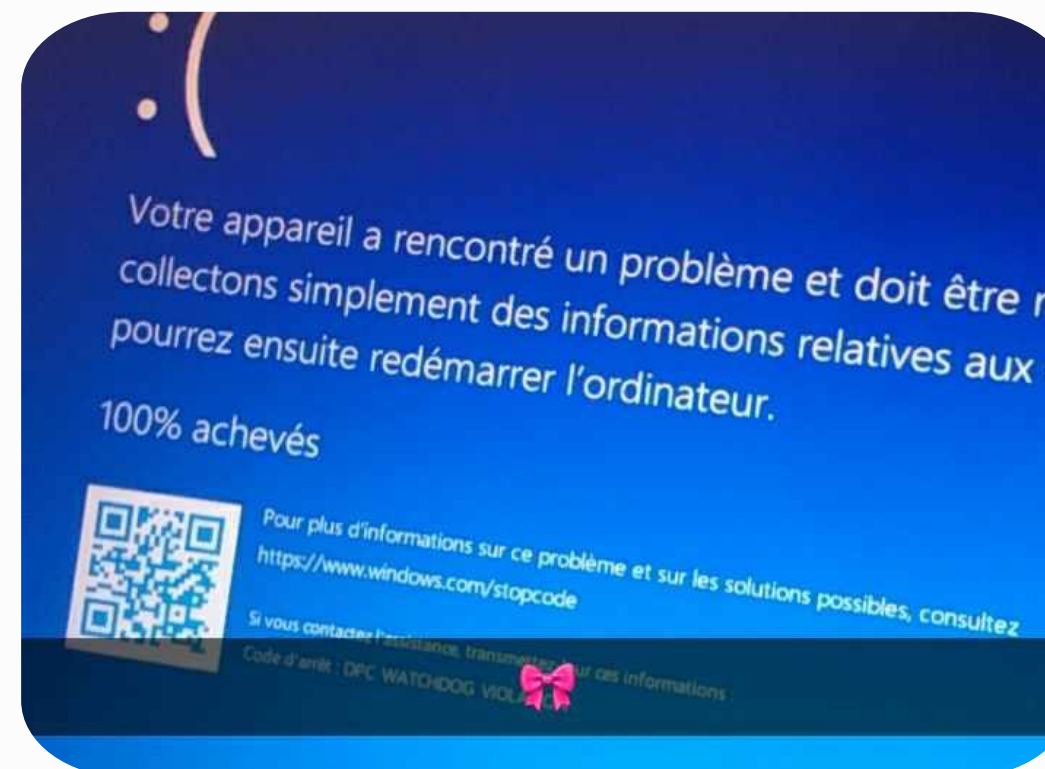

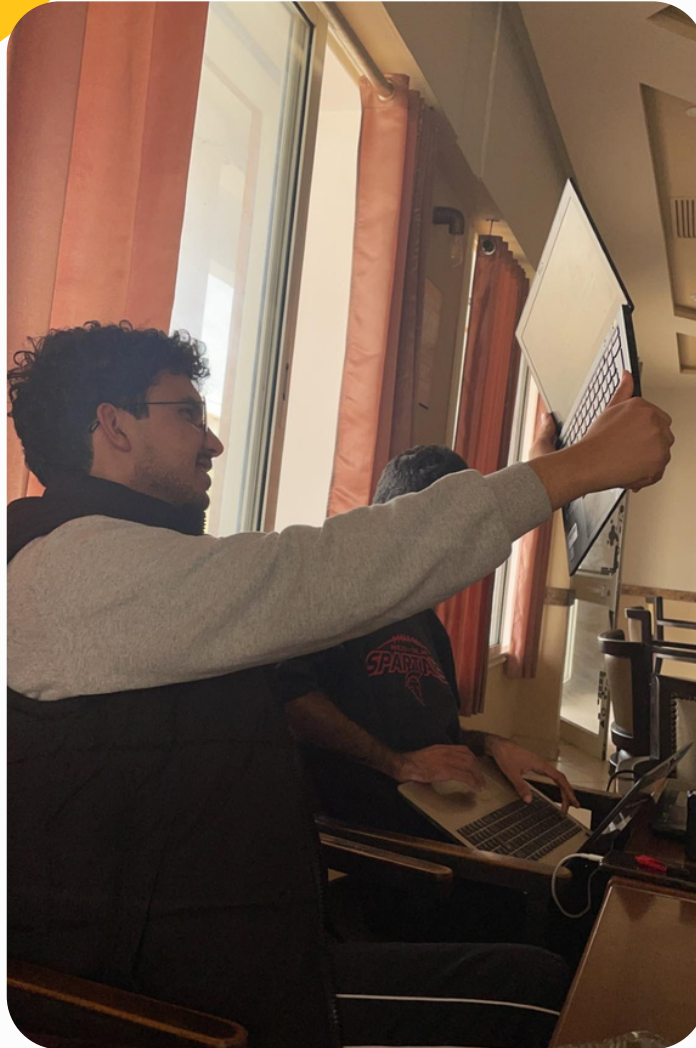

Overall

- What can you do with this CV builder?
- Can anyone add features and modify the code ?
- Is it easy to use for everyone?
